

Secure, low maintenance, durable and available in a great range of colours. Enhance or just add some privacy to your home, business or factory.

## COLORBOND FENCING

Colorbond fences are a very popular option. Great for feature fences, boundaries, or with the addition of lattice can make a great entertaining area. Colorbond is low maintenance, durable, comes in a great range of colours, and offers privacy and security. It is termite proof, fire retardant and has been extensively weather tested for Australian conditions and is corrosion resistant.

### SPECIFICATIONS:

We only use genuine Colorbond which complies to Australian Standards AS1397 and AS2728, and isn't imported, and is designed to withstand wind gusts of up to 180km/h.
